

RAKIBUL HASAN NAHID

Aspiring SQA Engineer

+880 1818 961859 | rakibulhasannahid7@gmail.com | [LinkedIn](#) | Dhaka, Bangladesh

SUMMARY

I hold a Diploma in Computer Technology and am currently pursuing a BSc in Computer Science and Engineering. My passion lies in software quality and testing, complemented by hands-on experience in web application development with PHP, Laravel, MySQL, and JavaScript. I am dedicated to leveraging my analytical skills and attention to detail as I embark on a career as an SQA Engineer intern, focusing on quality assurance and software development.

EXPERIENCE

Industrial Attachment Intern

Creative IT Institute

01/2023 - 12/2023 | Bangladesh

- Tested web applications built with PHP and Laravel by performing functional and exploratory testing to identify defects and inconsistencies
- Documented and tracked bugs by writing clear, reproducible bug reports and communicating findings to developers
- Verified CRUD operations and relational database logic across multiple modules to ensure data integrity
- Gained hands-on exposure to real-world database-driven systems and Agile team workflows

EDUCATION

BSc in Computer Science and Engineering

Canadian University of Bangladesh

01/2024 - Present | Dhaka, Bangladesh

Diploma in Computer Technology

National Polytechnic Institute

01/2019 - 12/2023 | Dhaka, Bangladesh

SKILLS

Testing & QA: Manual Testing, Regression Testing, Bug Reporting, Test Case Design

API & Tools: Git, VS Code, Postman

Languages: PHP, JavaScript, HTML, CSS

Databases: MySQL, MSSQL, PostgreSQL

Soft Skills: Attention to Detail, Analytical Thinking, Team Work

CERTIFICATIONS

- The Complete 2026 Software Testing Bootcamp – Udemy
- Industrial Attachment Certificate – Creative IT Institute (PHP & Laravel)

KEY ACHIEVEMENTS

✓ Web Development Projects

Successfully built and tested a dynamic portfolio system and a blog management platform, enhancing my skills in web development and software quality assurance.

PROJECTS

Portfolio Website with Admin Panel

01/2023 - 12/2023

A personal portfolio website showcasing skills and projects.

- Built a dynamic portfolio system using PHP, MySQL, HTML, CSS, and JavaScript with admin authentication and content management
- Performed self-QA by designing test scenarios for user authentication flows, form validation, and content CRUD operations – identifying and fixing edge-case bugs before deployment
- Tested cross-browser rendering and validated database-driven page updates for consistency

Blog Management System

01/2023 - 12/2023

A blogging platform allowing user interactions and content management.

- Developed a blog platform using Laravel and MySQL featuring relational database design, post management, user authentication, and MVC architecture
- Created manual test cases covering user registration, login, post creation/editing/deletion, and role-based access – verifying functional correctness at each stage
- Used Postman to test API endpoints for post and user management, validating request/response payloads and HTTP status codes
